performance marketing *proposal*

Bespoke Two-Pronged Strategy

PROJECT MANAGER:
Callum Edwards

our approach

BREEV.ch isn't like the other performance and recovery brands or similar products out there in the market. While others focus purely on product features or price points, BREEV is being positioned as a premium, purpose-driven brand - one that leads with education, science-backed content, and customer trust.

Our goal is to create a brand that mirrors how modern private health and wellness companies thrive - by putting education and value first, and allowing product sales to follow naturally as the byproduct of brand authority.

We'll follow a dual-focus strategy:

Brand Authority

Built through high-quality educational content, SEO, and thought leadership in the nasal/breathing performance space.

Performance Marketing

Lean, conversion-focused ad strategies to drive efficient sales and build a revenue engine that scales.

We call this approach: **Educate First, Convert Second.**

At the same time, we remain agile.

Where there are clear purchase intents - like returning visitors, engaged audiences, or cart abandonment - we'll use **retargeting, product feeds, and dynamic ad placements** to enable seamless direct-to-product paths without ever cheapening the brand.

overview: two-pronged strategy

A

Performance Marketing - Direct to Sale

Objective: Drive conversions across all current and future BREEV products.

Channel Focus:
- Meta Ads
- Google Ads
- Ongoing optimisations via data feedback loops (audience, creative, offer performance)

B

Content & SEO – Education Engine

Objective: Build brand authority and grow organic traffic, creating a testing ground for our paid approach.

Channel Focus:
- Shopify Blog (long-form educational content)
- On-Page & Technical SEO
- Email Newsletter (content distribution & list growth)
- Organic Social Repurposing (Facebook, Instagram, LinkedIn, TikTok optional)

timeline: the rollout

1

Phase 1: Audit & Strategy Build (First 30 Days)

Deliverables:

- Meta Ads Audit (campaign structure, targeting, creative direction)
- Google Analytics & GA4 Setup Check (events, tracking accuracy, attribution)
- SEO Audit (keyword coverage, on-page SEO, technical health)
- Content & Comms Audit (existing blogs, tone of voice, messaging)
- Launch of Top-of-Funnel (TOF) Campaigns to collect data, build awareness, and test engagement angles

Outcome: A phased roadmap based on insight, not assumptions. This allows us to prioritise quick wins (e.g. fixing ad structure, tightening landing pages, surfacing overlooked keywords) while building a deeper content engine behind the scenes as laid out in Phase 2B.

2A

Phase 2A: Performance Marketing Execution

Primary Goal: Drive direct product sales

We are responsible for the overall performance marketing strategy and execution. However, we welcome your suggestions - especially where they align with broader business activities we may not be aware of, such as limited-time offers, partnerships, UGC content, geography-based incentives, or events.

Included in Current Scope

- Ad Creative Strategy Advice
- Meta Ad Campaign Setup & Management
- A/B Testing & Optimisation
- Weekly Budget Management & Scaling Decisions
- Creative Briefs & Direction
- Conversion Tracking Implementation & QA
- Live Dashboard & Weekly Reporting (ROAS, CTR, list growth, etc.)

Provided by You (BREEV.ch)

- Ad Graphics & Video Assets
- UGC Filming
- Offer Details or Promotion Info
- Landing Page Builds

Available via Bolt-On

- Landing Page Builds (Tech Bolt-On)
- Ad Graphics & Video Assets (Creative Bolt-On)
- Video Editing (Video Bolt-On)

See bolt-on pricing at the end of this proposal

2B

Phase 2B: Content & Education Engine

Primary Goal: Build Organic Traffic & Thought Leadership

Included in Current Scope

- **Monthly Blog Articles (1–2/month)**
  - Written and SEO'd for approval
  - Published on Shopify with SEO fields
  - Stock imagery or creative direction

- **Educational Topic Roadmap**
  - Collaborative blog theme calendar
  - Strategy-aligned with brand goals

- **On-Page SEO**
  - Internal links, meta titles, schema
  - Applied to blogs and key site pages

- **Technical SEO Advice**
  - Site speed, indexing, crawlability - flagged in audits

- **Repurposed Social Posts**
  - 1–2 captions per blog in Google Doc format
  - Includes hooks and CTAs tailored to blog topic and strategy
  - CTA examples include: "link in bio," "DM us the word X," "comment below"
  - CTA formats will evolve as we track performance

- **Email Newsletter (1x per month)**
  - Written, formatted, and sent
  - Delivered via your email software or GHL (see below)
  - We advise and include wider strategic content in the newsletter + CTA focus

- Access to our Go High Level CRM is available for $1/month even if the Tech Bolt-On is not active. In that case, you'll manage and maintain the system yourself - but it still offers significant savings vs running your own CRM platform.

Provided by You (BREEV.ch)

- Blog imagery (if graphic design/branding is required)
- Graphic design for social posts
- Email platform (if not using GHL)
- Execution of technical website updates
- Pipeline development inside chosen platform
- Sign-off and feedback on content
- Posting repurposed content on social media

Available via Bolt-On

- Social Scheduling (Social Scheduling Bolt-On)
- Graphic Design (Creative Bolt-On)
- Advanced Pipeline Automation & CRM Setup (Tech Bolt-On)
- Technical Website Updates (Tech Bolt-On)

See bolt-on pricing at the end of this proposal

important: the evolving strategy

This document outlines the initial scope based on our discovery calls, previous discussions, and our recommendations in a phased rollout format.

We are deliberately providing this as a strategic starting point - not an exhaustive list of every future task. This is a living, adaptive marketing system, not a static campaign.

Some tasks will be triggered by performance insights. Others will emerge naturally as we uncover needs, gaps, or quick wins.

Please note:

- This is not a closed checklist - not every item can be predicted
- Some deliverables require bolt-ons or your input (graphics, landing pages, videos)
- We will proactively suggest next steps when opportunities appear

---

why phased rollout matters...

Reduces Waste
Avoids committing to bloated, untested ideas.

Data-Led Strategy
Audits shape actions and priorities.

Quick Wins First
E.g. restructuring Meta campaigns, improving page load speed, fixing basic SEO issues.

Content Engine is Layered In
We build it over time with strategic depth. This is not a one size fits all approach.

pricing overview

our proposal	total (excl. VAT)
30 Day Down Payment (to be paid on sign up)	**£2,000 (one-off)**
Meta & Google Ads (paid monthly + ad spend commission)	**£1,300/month**
Organic Education Engine + SEO (paid monthly)	**£650/month**

optional bolt-ons	total (excl. VAT)
~~Meta & Google Ads Management~~	~~£1,300/month~~
~~Organic Content Engine~~	~~£650/month~~
Creative	£500/month
Video Editing	£500/month
Tech	£500/month
Social Media Scheduling	£300/month

> Each bolt-on comes with a 90-day commitment, so you can freely add or remove them during busy periods when you may want to offload extra tasks to us.

bolt-on responsibility clarification

Whether a bolt-on is activated or not, we'll always provide direction and strategic guidance for Creative, Video and Tech deliverables.

- **If you activate the bolt-on:** We take full ownership of production, design, builds, or scheduling.
- **If you don't activate the bolt-on:** You or your team action the direction we provide.

To keep everything aligned, all campaigns will be documented in a shared Trello board - with clear task assignments to show who is responsible for what.
