Callum Edwards

the rollout

1

STAGE 1: FOUNDATION (WEEKS 1–4)

Run the full technical SEO audit across both sites and resolve every red and amber flag identified in this report. Fix mobile load times, missing H1s, meta descriptions, and broken links. Optimise the homepage hierarchy on the conversion site to lead with Atlas. Add pricing and a lifestyle hero to the hire site. Set up a CRM platform with a lead qualification pipeline and automated follow-up sequences segmented by revenue stream. Optimise the Google Ads account against the existing recommendations. Update YouTube bio, channel links, and add CTAs to all build videos.

OUTCOME Both websites firing properly. Every enquiry entering a qualified, automated pipeline. Google Ads performing at full capacity.

A Core Deliverables

Conversion Website

Option A – Optimise Existing

Refine and improve your current website without rebuilding it. We work within the existing structure to fix performance issues and improve conversion where possible.

What This Looks Like

- Improve mobile load speed (optimising media + structure)
- Clean up page layout and hierarchy
- Introduce Atlas as a clearer focal product
- Improve CTA placement and user flow
- Apply SEO and technical fixes

Pros

- Lower upfront investment
- Faster to implement
- Improves current performance without disruption

Limitations

- Restricted by current theme and page builder
- Limited control over design and UX
- Harder to fully optimise for conversion
- May require revisiting in the future

Goal

To improve what's already there without committing to a full rebuild

£3,280+vat

OR

Option B – Full Bespoke Build

A fully bespoke website built specifically for conversion, performance, and scalability. This removes existing limitations and allows us to structure the site properly from the ground up.

What This Looks Like

- Fully custom, conversion-focused premium design
- Atlas positioned as the flagship product
- Mobile-first, high-performance build
- Built to support future content and paid traffic

Pros

- Full control over UX, structure, and performance
- Built specifically to convert traffic into enquiries
- Scalable for content, SEO, and paid ads
- Long-term solution

Considerations

- Higher upfront investment

Goal

Building a proper foundation for long-term growth and maximising conversion performance

£7,180+vat

B CRM Platform Setup

Replacing and bolstering your tech stack around email marketing, lead management and data storage.

What This Looks Like
- Lead qualification pipeline setup
- CRM integration
- Automated follow-up sequences

Goal
Structure and automate your lead pipeline so every enquiry is captured, qualified, and followed up consistently.

£1,500+vat

C Google Ads Optimisation

Refine your existing Google Ads setup to improve efficiency, reduce wasted spend, and maximise lead quality.

What This Looks Like
- Account structure optimisation
- Keyword + targeting refinement
- Budget efficiency improvements
- Conversion tracking alignment

Goal
Get Google Ads performing at full capacity with improved conversion.

£750+vat

D YouTube & Social Quick Wins

Apply immediate improvements to existing channels to increase visibility, engagement, and traffic flow.

What This Looks Like
- Fix YouTube description links
- Update channel links + CTAs
- Improve profile optimisation
- Quick social performance tweaks

Goal
Unlock quick wins that improve traffic and channel performance immediately.

FREE

2 **STAGE 2: ORGANIC ENGINE (WEEKS 5–8)**

Launch the weekly content engine. One long-form piece per week produces an SEO article, a YouTube video, an Instagram carousel, a reel, and a cross-posted TikTok. Tom Davies personal brand and Camper Camper business brand run in parallel. The personal brand builds trust and brings new people in. The business brand captures the enquiry and closes it. Clean and segment the email list into six audience groups. Build the Atlas brochure and UK adventure hire guide as lead magnets on each site. Build email nurture sequences for each segment. Launch a consistent posting cadence on the hire Facebook page.

OUTCOME A consistent organic system generating the right leads for the right revenue stream. List growing through targeted lead magnets on both sites.

A Core Deliverables
Weekly Content Production

Build a repeatable system that turns one piece of content into multiple high-performing assets.

What This Looks Like
- Define content pillars
- Create content workflows

Goal
Create a scalable system for consistent content production based on 1x YouTube video repurposed into:
- 1x SEO blog article + email
- 1x Instagram carousel
- 2-3 Short-form video (Reel/TikTok)

£1,300+vat

B Email List Clean + Segmentation

Organise your database into clear audience groups to allow for more relevant communication.

What This Looks Like
- Segment contacts and align segments with revenue streams

Goal
Enable targeted messaging that improves engagement and conversions.

FREE

C Lead Magnets

Develop high-value assets designed to capture and convert new leads.

What This Looks Like
- Atlas brochure
- UK adventure hire guide
- Build + publish across both sites

Goal
Increase lead quality through valuable, targeted offers.

£1,230+vat

D Hire Social Content Plan

Create a consistent content approach focused on driving hire enquiries.

What This Looks Like
- Content plan for hire Facebook page
- Posting cadence
- Content direction + themes

Goal
Generate consistent hire enquiries through organic content.

£560+vat

3

STAGE 3: AMPLIFICATION (WEEKS 9–12)

With an organic system producing consistent content, scale the paid media. Increase the Google Ads budget incrementally. The cost per conversion already justifies it. Launch Meta follower growth campaigns on Instagram and Facebook to build the audience that every future organic post will land in front of. Launch Meta retargeting campaigns using the best-performing organic content as ad creative. Introduce the Atlas brochure lead magnet campaign to cold audiences. Launch hire retargeting to warm audiences with availability and lifestyle creative.

OUTCOME Paid media amplifying a system that is already working. Every channel reinforcing every other. Leads entering a pipeline that converts.

A

Core Deliverables
Full Managed Service

What This Looks Like
We become your full expert digital marketing team.

This is where we really accelerate all the foundations implemented in stage 1 and 2.

You'll receive full paid and organic strategy management with Fee, along with creative support, including ad video editing, ad design and ongoing graphic design projects.

We'll also fully support you with email copy, ad copy and tech support.

This includes automation management, utilising tools like Zapier to provide CRM integration alongside complete landing page design & funnel creation.

- **meta ads management**
- **google ads management**
- **ads reporting**
- **email + ad copy**
- **project management**
- **dedicated team**
- **ongoing creative**
- **ongoing video editing**
- **ongoing tech support**
- **weekly content engine**

£6kp/m+	**14%**

important: the evolving strategy

This document outlines the initial scope based on our discovery calls, previous discussions, and our recommendations in a phased rollout format.

We are deliberately providing this as a strategic starting point - not an exhaustive list of every future task. This is a living, adaptive marketing system, not a static campaign.

Some tasks will be triggered by performance insights. Others will emerge naturally as we uncover needs, gaps, or quick wins.

Please note:

- This is not a closed checklist - not every item can be predicted
- Some deliverables require bolt-ons or your input (graphics, landing pages, videos)
- We will proactively suggest next steps when opportunities appear

---

why phased rollout matters...

Reduces Waste
Avoids committing to bloated, untested ideas.

Data-Led Strategy
Audits shape actions and priorities.

Quick Wins First
E.g. restructuring Meta campaigns, improving page load speed, fixing basic SEO issues.

Content Engine is Layered In
We build it over time with strategic depth. This is not a one size fits all approach.

pricing overview

our proposal	total (excl. VAT)
Stage 1: Foundations (Weeks 1-4)	**£5,530 (one-off)**
Stage 2: Organic Engine (Weeks 5-8)	**£3,090 (one-off)**
Stage 3: Amplification (Weeks 9+)	**£3,600/month**

Audit Investment Credit

Important: As part of this process, you've already invested in a full digital audit to identify opportunities and define the strategy. This will be deducted from a stage of your choice upon sign up.
