Dual-Phased Approach

PROJECT MANAGER:
Callum Edwards

our approach

Utility Vehicle Solutions is entering the market with strong momentum. Your business already has a strong sales foundation through forums and word-of-mouth, but the brand's online presence and your personal brand doesn't yet reflect the authority, quality, or scale of the offering.

Our goal is to build a self-sustaining organic marketing engine that positions yourself and UVS as the trusted leader in the UK commercial and fleet vehicle space.

This system will:

- Establish UVS as an industry authority.
- Create predictable inbound lead flow through organic content.
- Build brand awareness and trust across Facebook, LinkedIn, and YouTube.
- Provide a framework that scales into paid marketing when ready.

To achieve this, we'll begin with a full in-depth audit and strategy phase. This ensures that all future marketing activity is grounded in data, insight, and clear strategic direction - not assumptions.

We propose to follow a dual-phased approach:

Phase 1: Audit & Strategic Report

A deep-dive discovery process designed to uncover where UVS stands today, what opportunities exist, and how to build a content system that drives consistent brand awareness and inbound enquiries.

Phase 2: 90-Day Content Strategy Execution (Optional)

Once the audit is complete, we'll turn insight into action - producing, managing, and optimising content across UVS's key channels to build a long-term organic marketing engine that compounds over time.

dual-phased approach

A

14 days

Phase 1: Paid Audit & Strategic Report

Objective:
Deliver complete clarity on UVS's current marketing landscape, audience opportunities, and content direction - creating the foundation for an actionable 90-day strategy.

What We'll Deliver:

- Full marketing audit across website, social channels, and brand touchpoints.
- Channel analysis identifying where target audiences are most active (Facebook, LinkedIn, YouTube).
- Competitor and industry research to uncover positioning gaps and opportunities.
- Content theme mapping - identifying the topics, tone, and storytelling approach that will drive authority.
- Strategic report outlining findings, recommendations, and an estimated monthly budget required for execution.

Outcome:
A tangible roadmap showing exactly where UVS stands, what content will perform best, and the recommended investment to execute a 90-day content engine.

> The audit is a paid deliverable. If you choose to move forward with Phase 2 for execution, the audit cost will be deducted from the 90-day strategy rollout.

B

90 days

Phase 2: 90-Day Content Strategy Execution (Optional)

Objective:
Turn insight into action - building and managing the UVS content engine to increase brand visibility, engagement, and authority.

What We'll Deliver:

- 90-day content plan with monthly milestones.
- YouTube long-form video production and repurposing strategy.
- Ongoing short-form content creation for Facebook and LinkedIn.
- Script and topic guidance for founder-led videos.
- Monthly strategy calls, reporting, and dashboard updates.
- Optional on-site filming, editing, and scheduling support.

Outcome:
A complete organic marketing system that continuously builds authority and generates consistent inbound interest - without reliance on paid ads.

important: the evolving strategy

This document outlines the initial scope based on our initial meeting, our own research, and our recommendations in a phased rollout format.

We are deliberately providing this as a strategic starting point - not an exhaustive list of every future task. This is a living, adaptive marketing system, not a static campaign.

Some tasks will be triggered by performance insights. Others will emerge naturally as we uncover needs, gaps, or quick wins.

Please note:
- This is not a closed checklist - not every item can be predicted
- We will proactively suggest next steps when opportunities appear

---

why this approach works...

Strategy Before Spend
By starting with a paid audit, we eliminate guesswork. Every creative, video, and post in the 90-day rollout will be backed by insight - not assumptions. You'll know exactly what's working, what's missing, and where to focus resources before committing to a long-term plan.

Fast Wins, Long-Term Vision
The audit highlights immediate opportunities while mapping the long game. Phase 1 delivers clarity and direction; Phase 2 builds the engine that compounds over time. It's a balance of tactical action and strategic foresight.

Data-Led Confidence
You'll receive a full report with tangible metrics, benchmarks, and a recommended budget - giving you confidence that every pound invested in content or production has a purpose and a measurable outcome.

Flexibility Without Risk
Because the audit is a standalone deliverable, you retain full ownership of all insights and recommendations. If you choose to move forward with us, the audit cost is credited - if not, you still walk away with a complete strategic roadmap.

Builds the Foundation for Scale
Once the organic engine is in motion, you can easily expand into paid media with a proven content system, tested messaging, and real audience data. The groundwork ensures future campaigns are more efficient, consistent, and impactful.

the price list

our proposal	total (excl. VAT)
Phase 1: Paid Audit & Strategic Report	**£1,250 (one-off)**
Phase 2: 90-Day Content Strategy Execution (Optional)	**tbc**

what we offer	total (excl. VAT)
Meta & Google Ads Management + Reporting	£1,700/month
Organic Content Engine	£1,300/month
Videography / On-Site Production Day + Editing	£1,400 (one-off)
Unlimited Graphic Design	£500/month
Unlimited Tech Development	£500/month
Unlimited Social Media Scheduling	£300/month

next steps

This proposal is designed to give you complete clarity and flexibility before committing to long-term marketing activity.

Phase 1 (the Audit & Strategic Report) is a paid upfront deliverable, providing a full analysis of UVS's current marketing landscape, opportunities, and content roadmap.

Once the audit is complete, we'll present a 90-day content strategy and a detailed quote for execution.

If you choose to move forward with us to deliver that strategy, the audit cost will be deducted from the Phase 2 total - ensuring your initial investment directly contributes to the full rollout.

This approach keeps everything transparent, insight-led, and risk-free - you pay once for clarity, then decide how far you want to take it.
